### **Confertainment - Conferences and Entertainment**

During the past few years, Europa-Park has developed into a first-class address for conferences. Due to the fact, that the combination of conferences and entertainment proved to be very successful, our Confertainment Center was opened in 1998. It is wrong to think that Europa-Park and its two hotels are suitable only as a destination for families or groups of young people. The park is becoming more and more popular as a destination for conventions and events for both, business and private parties - and not only the over 100 top attractions and international shows make our guests want to come back. Well known companies from Germany and abroad already have visited the attractive premises, so that about 850 events took place at Europa-Park in 2003.

Depending on the number of participants and the type of conference, an appropriate setting can be chosen. Optimally equipped conference rooms, modern communication technology and competent service guarantee that each event will be a complete success, no matter if you are planning a conference, workshop or seminar. We will ensure that you and your group can work in a professional and relaxed atmosphere - conference and entertainment on the highest level.

Europa-Park offers a vast number of premises that create an exceptional atmosphere for presentations, speeches, lectures, workshops, seminars, anniversary celebrations, gala evenings and much more. The event will be organized with creativity and professionalism, according to your wishes and objectives. Creativity and motivation are key factors for each event - factors that are considered to be essential at Europa-Park.

The Confertainment Center ensures perfect preparation and a smooth course of the event by cooperating already during the planning stage. No matter if you want to organize a specific company statement, a product presentation or a reward and incentive for your employees - Europa-Park offers a unique setting, show stars and international artists to create an individual and exclusive event.

## MEDIA INFORMATION

The wide range of our first-class culinary specialities and the exclusive rooms and suites in the adventure hotels "El Andaluz" and "Castillo Alcazar" create a cultivated and relaxed atmosphere. In June 2004, the largest hotel outside of Italy - the "Colosseo" - has opened its doors. The hotels as well as the castle restaurant remain open after the end of the season.

Thanks to the multitude of varied dishes that can be savoured in each one of the themed areas, the range of dinner events is increasing continually. A great opportunity for everyone who wants to combine adventure with enjoyment and pleasure with culture.

Also this season the event gastronomy of our Confertainment presents a highlight with the dinner show "Cirque d'Europe", a first-class event. Acrobats, dancers and musicians are celebrating a special evening with a fantastic show programme.

The stylish setting for this overwhelming spectacle is the "Teatro dell'Arte". The magnificent splendour of the baroque theatre underlines the breathtaking atmosphere of this exceptional dinner show. A fascinating combination of dining and entertainment.

Candlelight, dance, reverie, artistry, emotions, comedy, glamour, stage play and culinary pleasures are best summarized with "Savoir Vivre", the obvious pleasure.

The masterly combination of thrill and dining creates an unforgettable evening full of enjoyment and fascination. The dinner show "Cirque d'Europe" offers first-class entertainment for companies, groups, clubs and conferences.

Of course, "Cirque d'Europe" is not the only evening programme at Europa-Park. For example, you can also enter the atmosphere of a typical French village during our French evening "La Cigale" or celebrate the Spanish night "Viva la vida" with fiery Flamenco performances.

Moreover, the "Alemannic Knight's Feast" invites you to celebrate a medieval banquet in our castle "Balthasar", or how about a terrific gala dinner à la Dalí, where charming muses celebrate the combination of
