Suddenly, eerie laughter, horrific creatures appear from the dark - a shudder running down your spine, your heart standing still: these are the nice and eerie Halloween Weeks from October 1st until November 7th at Europa-Park, the time of trick or treat.

The Halloween Weeks have been a very special highlight in autumn at Europa-Park since 1998. The themed areas Germany, Russia and Italy are turned into a truly creepy Halloween landscape with countless yellow, orange and white pumpkins, corn plants and bales of straw. The spooky illumination invites ghosts, witches, goblins and magicians to gather at Europa-Park for a big Halloween spectacle.

One of the ultimate horror highlights for the whole family is the daily **Happy-Halloween-Parade** with more than 80 artists in creepy costumes. Our youngest visitors will be fascinated by the **Halloween Children's Show** and also the older guests can enjoy a new spine-chilling Halloween highlight this year: in our Magic Cinema, Europa-Park presents the horror film "Haunted House? in 4D (not suitable for children under 8 years).

In the Magical Garden, visitors can carve their own pumpkins or visit the big pumpkin exhibition with over 60 different kinds of pumpkins. In the German Alley, the little ones can learn the basics of witchcraft in our "School for Witches? and then get a creepy **Halloween make-up** and **weird hairstyles** in the Russian themed area for a small fee.
