Europa-Park is voted best theme park in Europe again

Experts of the international amusement park branch have voted: Europa-Park achieves an outstanding second place worldwide in the category "Best Park" at the renowned Golden Ticket Awards and thus improves by one place compared to last year's result. At the same time, Europa-Park strengthens its leading position as best European theme park.

The US-magazine "Amusement Today" asks experienced amusement park and roller coaster experts to vote their favorites in 25 classes. In the category "Best Park", Europa-Park once again belonged to the winners. Voted second best park in the world, the family business from Baden, Germany, stands out against great American groups.

With the opening of the fifth themed hotel "Bell Rock" and the new wooden coaster "WODAN – Timburcoaster" Europa-Park continues its expansion. The theme park's new rollercoaster and new hotel also represent the biggest ever investment in the history of the long-established family business.

You can find two pictures of Europa-Park's novelties 2012 attached.
