New offer for parents and their children: HiPP Baby Service

Since the beginning of the season 2003, Germany's biggest leisure park offers its little guests and their parents a separate service room in the Italian themed area.

Also the smallest ones are taken care of in the best possible way at Europa-Park. In cooperation with HiPP, the leading producer of baby food, Europa-Park offers a great service for mothers and infants: care and food for the youngest visitors of Europa-Park in our "HiPP Baby Service".

On an area of 120 m², HiPP offers all parents with babies and infants an oasis of peace and great service. In the premises of the HiPP Baby Service, mothers can find a quiet corner to feed their babies, two nursing areas and sufficient space for their little ones to play. The young parents can ask the advice of HiPP's trained staff and try out a large assortment of HiPP products for a small contribution towards the expenses.

In a small kitchen with microwave and a bottle warmer, parents can prepare baby milk or pap and heat up HiPP spoon food. In addition, there are dummies, feeding bottles and nappies for the little ones.

The HiPP Baby Service is situated in the Italian themed area at the rear of the "Casa dei Dolci".
