"I dream about having such a wonderful park in Vietnam" - Vietnamese government delegation has visited Europa-Park

On August 30th and 31st Roland Mack, managing director of Europa-Park, has welcomed high-ranking representatives of the Vietnamese government, who then have spent both days in the leisure park.

In the course of a trip to Europe, the representatives wanted to get an impression of the dimensions and the recreational facilities of modern leisure parks. The reason for this interest is the planned major project of a leisure park in Saigon. The Mack rides factory in Waldkirch / Black Forrest is already negotiating with the investors of the project about a order of 20 attractions.

"I dream about having such a wonderful park in Vietnam?", said Mr. Vu Khoan, deputy prime minister, enthusiastically. First, the delegation with the deputy prime minister, the vice foreign minister, the vice minister of finance, the vice minister of commerce, the UN ambassador and other high-ranking government representatives, met in the old castle "Balthasar" in order to get a brief introduction. In the afternoon, the guests had the possibility to get first-hand information in the park and saw some of the highlights of Europa-Park's over 100 attractions and shows during a guided tour. For example, they dared to take a thrill-ride with the "Silver Star", Europe's highest and biggest roller coaster, and saw fascinating 4D special effects in the new attraction "Magic Cinema 4D".

According to their statements, the politicians were amazed and got a good idea of the attractions and recreational facilities in a modern leisure park, such as Europa-Park. In addition they mentioned, that they were surprised by the great number of visitors from many different countries, who harmoniously experience of recreational activities each day.
