At Europa-Park, summer turns into an unforgettable experience!

It's getting hot this summer in Germany's biggest theme park! Under the bright sun and blue sky not only more than 100 attractions and shows with splashy fun for the whole family attract the visitors, but also hot party nights and Caribbean flair guarantee plenty of fun and entertainment. Palm trees and culinary delicacies invite the park's guest to have a refreshing cocktail in Iceland or to dance to the rhythm of summer hits at the Beachparty.

Splashy roundtrip through Europe

13 European themed areas invite the whole family for a round trip through Europe. On an area of 85 hectares, the guests discover typical architecture, vegetation and culinary delicacies for a perfect holiday feeling. The numerous water attractions offer splashy refreshment from hot summer temperatures. The hungry adventurers can please their palate in the new "FoodLoop" Restaurant with 215 seats on 2 floors and a magnificent view over the park. This loop-restaurant is a true highlight in the wide range of culinary offers at Europa-Park. In Italy, young and old alike can go for a gondola trip with "Piccolo Mondo", before sailing away in Iceland. Just besides, in Portugal and Scandinavia, the water attractions "Atlantica SuperSplash" and "Fjord-Rafting" propose more splashy fun. After this, the best way to dry off is a ride on "blue fire Megacoaster powered by GAZPROM", which takes the visitors upside down through the rugged landscape of Iceland. Taking off aboard one of Leonardo da Vinci's ingenious flying machines – this dream will come true in the new family attraction "Volo da Vinci"! A ragbag of models and constructions realised by the ingenious artist and inventor awaits the visitors. Leonardo da Vinci was known for his habit to test his inventions right away. Therefore, the guests can enter his flight machines right after leaving the workshop. For those who like it a bit more laid-back, exclusive show programmes await them on various stages throughout the park.
