Europa-Park is voted best theme park in Europe once again

Experts of the international amusement park branch have voted: Europa-Park achieves an outstanding third place worldwide in the category "Best Park" at the renowned Golden Ticket Awards, which took place for the 14th time already. At the same time, Europa-Park strengthens its leading position as best European theme park.

Every year, the US-magazine "Amusement Today" calls for the election of the best amusement parks and attractions of the world. Experienced amusement park and roller coaster experts had to choose their favourites in 25 categories. In the category "Best Park", Europa-Park once again belonged to the winners. As third-best park worldwide, the family business stands out against great American groups as for example Disneyland California.

With the construction of a wooden coaster and the meanwhile fifth themed hotel "Bell Rock", which will open its doors next summer, Europa-Park keeps on betting on expansion and will once again present spectacular novelties to its visitors in 2012.
